MI WAY Classroom

Live English quizzes, no internet

A demo for teacher training days

Rabii Hajoui · high school English teacher, Morocco

Created by RABII HAJOUI

Three problems in our classes

No Wi-Fi

Most quiz tools need the internet.

No budget

Free plans are limited or full of ads.

No time

Making a quiz for every lesson takes hours.

And the real question: who understood, and who did not?

Ready in one minute

1

Hotspot

The teacher's phone or laptop makes the network. No internet needed.

2

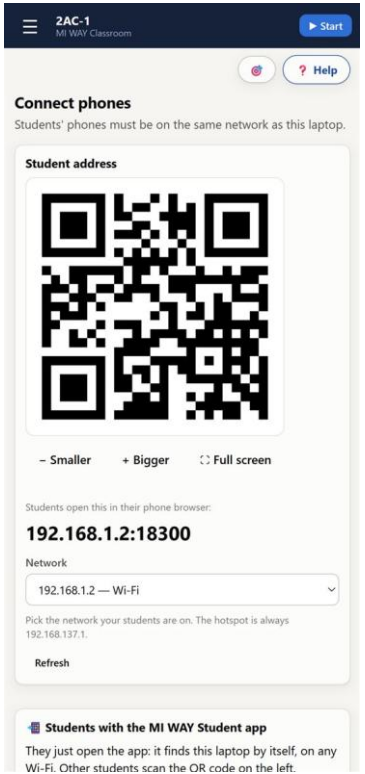

One QR code

Students scan and tap their name. Nothing to install, no accounts.

3

Quiz

Answers arrive live on the screen or projector.

Test · Teach · Test

Test 1

Diagnostic test: what the class already knows

→

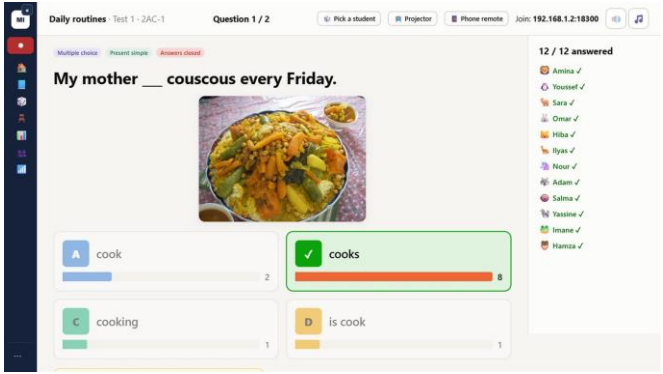

Teach

Targeted remediation: only the missed points

→

Test 2

Measured progress, student by student

Every question has 4 versions, so neighbours cannot copy.

What we measured

42% → 58%

One Common Core class, same skill, in 3 weeks

91 students

24 sessions

5,495 answers

3 Common Core classes, 29 Sep – 15 Oct 2026. Anonymous data from the author's classes.

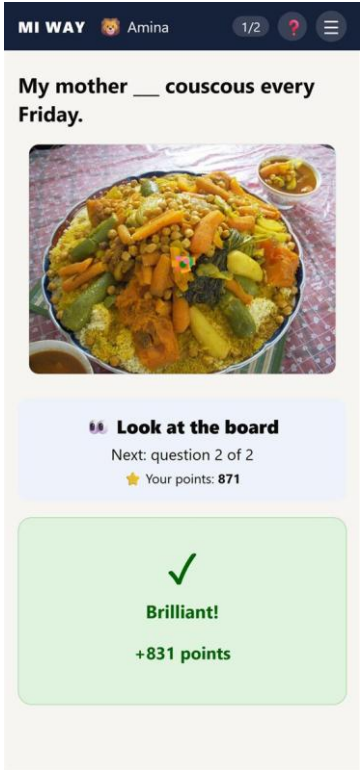

Ready for Moroccan textbooks

Ready lessons

- Spotlight 1AC, 2AC, 3AC
- Outlook
- Ticket to English
- Gateway
- Insights

All skills

- Listening for every lesson and unit
- Speaking, writing and picture vocabulary
- 3 help levels 🌱 🌿 🌳 for every student
- Record book, marks /20, Excel export

Demo: 20 minutes

0–3 min	Turn on the hotspot, open a ready lesson
3–8 min	Participants scan the QR and play the students
8–15 min	5-question quiz: live answers, podium
15–20 min	Test 2, each "student's" progress, discussion

You need: an Android phone or a Windows laptop, and a projector if possible.

Common questions

Is it really free?

Yes, no student limit and no ads. Only the optional AI quiz writer needs the teacher's own paid key.

Does every student need a phone?

No. Students can play in pairs or groups, one phone per group.

What about student data?

Everything stays on the teacher's device. No cloud, no accounts.

Which devices?

Teacher: Android or Windows. Students: any phone with a browser.
